

JOB OFFER:

Junior Web Developer (m/f)

ms.GIS GmbH provides highly sophisticated services to deploy turn-key spatial solutions (GIS based) to support business processes with spatial context while protecting client's investments in models, data and systems. A strong and reliable network of renowned partner companies is the sound basis for our successful international projects. To succeed in our complex and interdisciplinary projects we depend on our teams of experienced and highly qualified staff.

Job description:

You are supposed to support as Junior Web Developer our existing team to implement technical solutions suiting for our customer's needs. These challenging and future oriented projects range from basic conceptions to realizations at the customer site locally and globally.

Skill Profile:

- Good technical understanding, analytical thinking
- Independent and precise way of working
- Basic knowledge of jQueryJS, AngularJS and ReactJS frameworks
- Basic knowledge of BootstrapJS and mithrilJS frameworks
- Basic knowledge of Javascript GIS Frameworks (like "OpenLayers" or "Leafletjs")
- Basic knowledge of RESTful Interfaces and JSON
- Experience in HTML5 frontend software development
- Good command of English

We offer:

The above described position will be on a full time basis, salary negotiable.

The job base is located in Mödling (NÖ, Austria), but you will be part of our international and interdisciplinary team.

We are an Equal Opportunity Employer and do not discriminate against applicants due to race, ethnicity, gender, disability or others.

If you are interested in working in a dedicated team, we look forward to receiving your application.

Please send application to:
